

# **Communities Index, Organized by Community Name**

Download [Communities Index by Community Name through issue #202](#)

***Thanks to Tim Miller for preparing this working index, currently updated through issue #202.***

**Notes:** Most citations: issue number:page. “Page” means first page; many articles cover more than one.

Groups in directory issues are referenced by the issue no. and “dir”: e.g., 66dir; groups in reach are sometimes referenced by issue number and “reach” (84reach); groups in grapevine are referenced by issue number and “grape” (97grape); groups in update are, e.g., 79update; etc.

Grapevine appears near the front of the magazine. Update is usually, but not always, near the back.

Community directory issues: 1, 7, 12, 18, 24, 30, 38, 46, 56, 66, 77-78 (first big book)

This index often does not include largely repetitive items (e.g., the same information appearing in the “Reach” feature repeatedly), nor does it include all articles on communities (especially earlier ones) well covered elsewhere (e.g., Shakers) It generally does not include communities outside the U.S., and does not consistently include communities mentioned only in passing.

LO = list only (appeared on a list, or only mentioned in text)
